Welcome Mr. Rykal, HS Principal

Hello, Cameron Comets! I am Mark Rykal, the new Cameron High School Principal. To begin, you may know my wife, Madeline, who is currently teaching kindergarten at Cameron Elementary School. We have four children: Charlotte (7th grade), Eleanor (5th grade), Oliver (1st grade), and Josephine (day-care). We spend a lot of time running to different activities with the kids, and I look forward to watching them participate in all Cameron Schools have to offer.

My path to principal took quite a few turns. I graduated from Chetek High School in 1990, so I am from the area. My first career after high school was working for a restaurant company in Duluth, MN. Deciding I wanted a more conventional lifestyle, I enrolled at UW-Green Bay, where I received my Bachelor's Degree in English Education. After 13 years as an English teacher in Chetek, I completed my Masters from

UW-Superior and made the move to administration as the 7-12 Principal in Shell Lake. When the opportunity to join Cameron High School came about, I couldn't pass it up. I am excited to be joining the school and meeting the students and staff, and I look forward to joining you all as a Cameron Comet!

Cell Phones & Cellular Watches

Cell phones are discouraged at Cameron Elementary School. If parents/guardians have a reason for their child to have a cell phone at school, they should contact the elementary principal to discuss the situation. Cell phones that are brought to school will be housed in the office during the school day. If a student needs to contact his/her parent/guardian during the school day they must come to the office to use the office phone. Student use of the office phone is for valid reasons only. The use of recording devices are not allowed in bathrooms or locker rooms.

Phone watches: Students are allowed to wear these watches during school hours. Families will be expected to turn off the phone and message capabilities during school hours. If a family needs to get a message to a student during the school day, they need to contact the school office.

All medication for students must be administered through the elementary office. Students who need to take medication, either prescription or over the counter, during the school day must have the proper medication forms and signatures on file in the elementary office. MS mentorship program recruiting mentors

Are you interested in working with a middle school student as an adult mentor? The Cameron Middle School's Mentorship program is looking for additional mentors for the upcoming school year. The program is designed to connect a student with a caring and supportive adult. Mentoring a student can help promote a student's self-esteem, self-confidence, increase coping skills, and promote healthy and positive relationships. What seems like socializing to you, could mean the world to a student. CMS is seeking individuals who would be able to meet with a student once a week over a lunch hour, here at the Middle School. For more information, please visit the Cameron Middle School homepage or the MS office at 715-458-5810.

PTO volunteers wanted

The Cameron Middle School is seeking volunteers for our Parent Teacher Organization (PTO). The PTO is involved in sponsoring and assisting educational experiences that benefit the students and staff at Cameron Middle School. We are looking for volunteers to attend a few meetings during the school year and help plan activities to support the staff and students at CMS. Being involved in the PTO is for any person who is involved with the children of Cameron Middle School and who would like to actively participate in their school experience. Involvement in the PTO means you have the desire to share what you do best, when it works best for you! If you are interested in becoming a member please contact the office 715-458-5810.

areas is nearly complete. The bidding process for these projects will also be taking place this fall with construction to take place during the summer of 2024. This includes the minor renovation of the elementary school office area.

Transportation

As we enter the new school year, we would like to remind students and families of our transportation expectations. Many school districts across Wisconsin, and the nation, continue to struggle finding qualified individuals to drive school buses. Some districts have been forced to drop routes and, in some instances, eliminate transportation within the city limits. We have been fortunate in Cameron to be able to continue our routes as in the past, but we also need to remember that riding the bus to school is not a right, but a privilege. All of our buses are equipped with video cameras that also record audio. When needed, our administrative team will use this monitoring to review student behaviors

One new school bus has been ordered but due to delays in the manufacturing process, it will not arrive until later in fall 2024.

A vendor has been selected for the middle school auditorium lighting replacement and the new lighting system installation is expected to begin around mid-November.

on our buses. If warranted, students will be assigned seats and in some instances removed from the bus for a period of time depending on the severity of an incident. Our goal is never to remove a student from a bus as we want our students in school each and every day. We ask everyone to be mindful of our expectations. If there are questions or concerns throughout the year, please feel free to contact your child's building principal.

Bus expectations:

1. Be at the designated bus stop on time
2. Follow instructions given by the bus driver
3. Remain in the same seat during the entire trip
4. Keep your whole body inside the bus at all times
5. Be courteous to the driver and others
6. Respect others' space (Keep hands and feet to yourself)
7. Use school-appropriate language and volume
8. Keep the bus clean (Free from food, gum, candy, pop)

Sponsor a child

The Comet Care Pack Program is starting its fifth year of service to Cameron School students! The Comet Care Pack is a program that provides kid-friendly, non-perishable food for Cameron School students at no cost to them. Nutritious items from a variety of food groups will be distributed at the end of each school week to students in the Cameron School District. Last school year we were able to serve over 60 students.

We will again be ordering food from Feed My People Food Bank, which is located in Eau Claire. It takes approximately \$125.00 per year to provide a child with a weekly Comet Care Pack.

Thank you to everyone who continues to make this program a reality. Your support is greatly appreciated. We will be starting the program again this fall and

any donation helps to make this a sustainable program.

I'd like to help the Comet Care Pack program:

Code of Conduct Policy - The Code of Conduct describes desired student behaviors that would contribute to a safe and pleasant environment. A student that exhibits appropriate behavior could be described as: courteous, honest, respectful, responsible, courageous, etc. Behavior and language which are acceptable result in an environment which is safe, minimizes stress, and maximizes the opportunity for learning. On the other hand, behavior which does not create an appropriate, pleasant environment is not acceptable. Examples of unacceptable behavior include: aggressive behavior which endangers oneself or others, behavior or language which is offensive or disruptive to the classroom or activity, the possession and / or use of alcohol, tobacco, or drugs, the possession of beepers, communication devices, weapons, or look-a-likes.

Behaviors which are not acceptable are initially dealt with by the teacher or supervisor in the area. Further, such behaviors may result in referral to school officials for additional disciplinary action. Discipline may include, but is not limited to: talking with the student, parental contact, detention, suspension from the activity

or from school for a period of time, expulsion, and / or any combination of these. The ultimate objective of discipline is the restoration of a relationship that allows for a safe, pleasant environment for everyone. An exception exists for the weapons clause which allows for the instruction of hunter's safety under the direction of properly trained instructors. A more detailed summary of the Code of Conduct Policy is printed in the Student Handbook which will be issued as students begin school this year. The Code of Conduct Policy as adopted by the Board of Education is available for review by contacting the District Office at 458-4560.

Student Records - The District maintains records for each student attending school in the District. State and Federal law requires that the maintenance of such records assure confidentiality. Accordingly, the following shall apply in the District.

- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to inspect, review and obtain copies of the student's school records upon request in accordance with established District procedures. The District will respond to such requests without unnecessary delay and in no case more than 15 days after the request is made. Copies of the District's student records procedures are available upon request at the District Office, 700 S. 1st St., Cameron, WI 54822. The regular office hours are 8:00 a.m. until 4:00 p.m.
- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to request the amendment of the student's school records if he/she believes the records are inaccurate or misleading. Complaints regarding the content of student records may be made in accordance with established District procedures. Copies of the District's procedures are available upon request as outlined above.
- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to consent to the disclosure of information contained in the student's school records, except to the extent that state and federal law authorize disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials determined to have legitimate educational or safety interests in the records.

A "school official" is a person employed by the District who is required by the Department of Public Instruction to hold a license; a person employed by or working on behalf of the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and police-school liaison personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a specific task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a "legitimate educational or safety interest" if the official needs to review a student record in order to fulfill his/her profes-

sional or District responsibility. The District shall transfer a student's records to another school or school district without consent upon request in accordance with state law. District procedures outline the specific reasons for disclosure without consent and are available upon request as outlined above. The District is required by law to make student records available to "law enforcement officers who are individually designated by the school board."

- An adult student, or the parent(s) or guardian(s) of a minor student has the right to file a complaint with the U.S. Department of Education for alleged District noncompliance with federal Family Educational Rights and Privacy Act (FERPA) requirements. The name and address of the office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605. Further, the Board of Education has designated the following student record information as directory data: student's name, address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received and name of school most recently previously attended by the student. This information may be disclosed to any person UNLESS the adult student, or parent/guardian or guardian ad litem of a minor student informs the school that all or any part of the directory data may not be released without the prior consent of the adult student, parent/guardian or guardian ad litem. The District will not release directory data earlier than two weeks (14 days) after the opening of school or receipt of this notice.

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the School District of Cameron, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child's education records in certain school publications. Examples include:

A playbill, showing your student's role in a drama production; the annual yearbook; honor roll or other recognition lists; graduation programs; sports activity sheets, such as for wrestling, showing weight & height of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want the District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing. The District has designated the following information as directory information:

Student's name; Address; Telephone listing; Date & place of birth; Electronic mail address; Participation in officially recognized activities & sports; Weight and height of members of athletic teams; Degrees, honors and awards received; photograph; Most recent educational agency or institution attended; Website and newsletter pictures; Major field of study; Dates of attendance; and Grade level.

Notification of Rights under FERPA for Elementary and Secondary Schools - The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate. Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board, a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged

failures by the school district to comply with the requirements of FERPA. The name and address of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605.

The District will directly notify parents and eligible students of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify parents and eligible students, such as through U.S. mail or e-mail, at least annually at the start of each school year of the specific or approximate dates of the following activities and provide an opportunity to opt a student out of participating in:

SCHOOL DISTRICT OF CAMERON ANNUAL NOTICE OF SPECIAL EDUCATION REFERRAL AND EVALUATION PROCEDURES

Upon request, the Cameron School District is required to evaluate a child for eligibility for special education services. A request for evaluation is known as a referral. When the district receives a referral, the district will appoint an Individualized Education Program (IEP) team to determine if the child has a disability, and if the child needs special education services. The district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private (including religious) schools, elementary schools and secondary schools located in the school district.

A physician, nurse, psychologist, social worker,

or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to refer the child, including a homeless child, to the school district in which the child resides. Before referring the child, the person making the referral must inform the child's parent that the referral will be made.

Others, including parents, who reasonably believe a child is a child with a disability may also refer the child, including a homeless child, to the school district in which the child resides.

Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Dennis Gunnink, Director of Special Education, Cameron School District, at 715-458-4560 or by writing her at P.O. Box 378, Cameron, WI 54822.

CONFIDENTIALITY OF PERSONALLY IDENTIFIABLE INFORMATION OBTAINED THROUGH CHILD FIND ACTIVITIES

Cameron School District is required to locate, identify, and evaluate all children, with disabilities, including children with disabilities attending private schools in the school district, and homeless children. The process of locating, identifying, and evaluating children with disabilities is known as child find. The school district has a special education screening program to locate and screen all children with suspected disabilities who are residents of the district and who have not graduated from high school. This notice informs parents of the records the school district will develop and maintain as part of its child find activities. This notice also informs parents of their rights regarding any records developed.

The school district gathers personally identifiable information on any child who participates in child find activities. Parents, teachers, and other professionals provide information to the school related to the child's academic performance, behavior, and health. This information is used to determine whether the child needs special education services. Personally identifiable information directly related to a child and maintained by the school is a pupil record. Pupil records include records maintained in any way including, but not limited to, computer storage media, video and audiotape, film, microfilm, and microfiche. Records maintained for personal use by a teacher and not available to others and records available only to persons involved in the psychological treatment of a child are not pupil records.

The school district maintains several classes of pupil records.

- "Progress records" include grades, courses the child has taken, the child's attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.

- "Behavioral records" include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil's behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening

records, law enforcement officers' records, and other pupil records that are not "progress records." Law enforcement officers' records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child's parents, the school district destroys the information that is no longer needed.

- "Directory data" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently previously attended by the student.

- "Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil's physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age ("eligible students") the following rights with respect to education records:

- The right to inspect and review the student's education records within 45 days of receipt of the request. Parents or eligible students should submit to the school principal or district administrator a written request that identifies the records(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable

requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

- The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask Cameron School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent. The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to (m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.

- The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

Reye's (Ryes) syndrome is a rare but serious condition that causes swelling in the liver and brain. Reye's syndrome most often affects children and teenagers recovering from a viral infection, most commonly the flu or chickenpox. Aspirin has been linked with Reye's syndrome, so use caution when giving aspirin to children or teenagers. Though aspirin is approved for use in children older than age 2, children and teenagers recovering from chickenpox or flu-like symptoms should NEVER take aspirin.

The signs and symptoms of Reye's syndrome

typically appear about three to five days after the onset of a viral infection, such as the flu (influenza) or chickenpox, or an upper respiratory infection, such as a cold. Initial signs and symptoms may include continuous vomiting, lethargy, and unusual sleepiness. As the condition progresses, signs and symptoms may become more serious, including: irritable, aggressive or irrational behavior, seizures, weakness, paralysis of arms and legs, confusion, disorientation or hallucinations. These symptoms require emergency treatment. Early diagnosis and treatment of Reye's syndrome can save a child's life. If you suspect that your child has Reye's syndrome, it's important to act quickly.

Always check the label before you give your child medication, including over-the-counter products and alternative or herbal remedies. Aspirin can show up in unexpected places, such as Alka-Seltzer and Pepto-Bismol. Sometimes aspirin goes by other names, too, such as: acetylsalicylic acid, acetylsalicylate, salicylic acid, and salicylate. If your child has the flu, chickenpox or another viral illness, use other medications—such as acetaminophen (Tylenol, others), ibuprofen (Advil, Children's Motrin, Motrin IB, others) or naproxen (Aleve)—to reduce high fever or relieve pain.

If you have questions regarding the use of aspirin for your child contact your healthcare provider. If suspect your child has Reye's Syndrome he/she requires immediate medical care.

Meningococcal Disease Meningococcal disease is a rare but potentially fatal bacterial infection that can cause severe swelling of the brain and spinal cord (meningitis) or a serious blood infection (meningococemia). Meningococcal disease is often misdiagnosed as something less serious because early symptoms are similar to common viral illnesses. Symptoms may include: high fever, severe headache, stiff neck, vomiting, sensitivity to light, nausea, confusion, rash and fatigue. Symptoms may develop rapidly or over several days. The disease can be fatal in as little as a few hours. Of those that survive 20 percent will have permanent disabilities, including brain damage, loss of limbs, and deafness. Meningococcal disease is spread through direct contact with respiratory and/or oral secretions from infected persons. Increased risk of exposure is caused by activities such as kissing, sharing drinks, or living in the same house as a sick person.

Teenagers and college students are at increased risk because of their lifestyle, and account for nearly 30 percent of the 4,000 cases in the United States each year. Up to 83 percent of the cases among teens and college students may potentially be prevented by immunization, the most effective way to prevent the disease. The CDC and other leading health organizations recommend that all 11–12 year olds should be vaccinated with meningococcal conjugate vaccine. A booster shot is recommended at age 16 to continue to protect through the teenage years. If a teenager has missed getting the vaccine, the parents should ask their healthcare provider about getting it now.

Keeping up to date on the meningococcal vaccine is the best way to prevent illness. Students should also get plenty of rest, eat a healthy diet, and avoid sharing drinks.
