Building our future: major High School renovations welcome students back!

Dear Cameron Community,

As we prepare to kick off an incredible new school year, we are filled with immense gratitude. Thanks to your overwhelming support and the successful passage of our 2023 and 2024 capital referendums, our campus has been buzzing with activity all summer long. We are thrilled to welcome our students back to a vastly improved, modernized, and safer learning environment.

Our community made a commitment to invest in the future of our youth and we are appreciative of the support. Over the past three years, we have made many improvements to our facilities, that include safety, electrical, HVAC and roofing updates as well as updates to our learning spaces. This fall, we are proud to show you the remarkable transformation taking place at our high school.

A modern environment for learning and growth

This fall, students will walk into upgraded academic and communal spaces designed to inspire collaboration and success:

- **Remodeled classrooms:** Freshly updated learning spaces offer flexible layouts to support modern teaching methods.
- **State-of-the-art science lab:** Brand-new science laboratory fixtures, tools and classroom lab area will provide

hands-on STEM learning experiences.

- **Upgraded library media center:** A transformed hub for research, digital literacy, and collaborative study.

- **New student lockers:** Modern, secure, and durable corridors to keep student belongings safe.

- **Beautiful cafeteria restrooms:** Fully remodeled common spaces and facility restrooms provide a cleaner, more welcoming daily experience for everyone.

Behind-the-scenes infrastructure upgrades

While the visual updates are exciting, some of the most critical improvements are the ones built directly into the school's infrastructure:

- **Advanced HVAC systems:** New ventilation upgrades will drastically improve classroom airflow, creating a healthier, more comfortable indoor climate year-round.
- **Brand-new roof:** Comprehensive structural replacement ensures our facility is dry, energy-efficient, and protected for decades to come.

Dropping off and picking students up at the HS/MS?

With the improvements at the high school this summer, we have added a lane on the south side of the high school that will allow parents to more easily drop off students in the morning and pick them up at the end of the day. This drive through lane is a one-way lane that parents should enter from the east and exit to the west. We are strongly encouraging parents to exit west toward the bus garage as opposed to turning east and going back towards SS. This will ensure less traffic and congestion at the intersection of SS and South Limits. This drop-off and pick-up lane is not intended for long-term parking and parents are asked to remain in their vehicles while dropping off students in the morning and while waiting for students at the end of the day. All students should enter/exit the high school through the south entrance and middle school students will travel through the high school hallway to get to the middle school in the morning and back through the high school at the end of the day to meet parents for pick-up.

Parents of middle school students can certainly still use the middle school parking lot for drop-off and pick-up, but are asked to park in the main parking lot as in the past. Also, this new area is not intended for elementary student pick-up for those elementary students being bussed from the elementary school to the middle school. All elementary students that are dropped off at the middle school should be picked up at the middle school as in past years.

Personal electronics

Electronic devices (i.e. i-devices, cameras, headphones, laser pointers, etc.) are not allowed by students during the school day at. If a student must have an electronic device at school they are to remain turned off and put away in the student's locker for the entire school day, unless the school principal has given prior authorization. Smart watches are allowed to be worn during school hours as long as all message and phone

Medications at school

All medications for students must be administered through the office. Students who must take medication, either prescription or over-the-counter, during the school day must have the proper medication forms and signatures on file in the Middle School office. All medication must arrive at school in the original packaging and can only be dispensed according to physician's order or package directions.

Mental Health Navigator

I hope you are enjoying summer! With August fast approaching, some of us are already getting into "Back-to-School" mode.

I am excited with the many renovations happening here in our District. I have coined my new office space (the old administration office location), as the "Comet Connection Center." This space will house my office, the MS/HS school psychologist, the school-based therapy offices, a telehealth room for any students' virtual appointment needs, and a multi-purpose conference room.

I am excited to welcome back our school-based therapist of four years, **Kaleena Vander Wyst**. She continues to serve many students (of all ages), here in our District.

Kaleena loves travel and family. She notes that, "Total wellness includes mental wellness."

Kaleena's advice to clients is... "to come

with an open mind. I am not here to judge you but rather walk alongside of you through your journey. I like my clients to feel supported and cared for."

I am also excited to introduce our new school-based therapist, **Heather Branham**.

Heather loves her family and a good cup of coffee. Heather's philosophy of care is rooted in the belief that every person is unique and brings valuable knowledge and lived experience into therapy. She sees patients five and older and strives to create a safe, supportive environment built on empathy, compassion, honesty, and respect.

We will continue to work diligently together to support the mental health needs and wellbeing of our students here at Cameron School District.

Jolene Severt

Individual photographs

School pictures will be taken on Monday, August 31. More information about ordering school pictures will be mailed to families. All students (even seniors) will have their pictures taken for use with the Skyward student management system.

2025–2026 yearbooks

Yearbooks will be delivered during the first week of school. Class of 2026 should pick up their copy from the HS office.

Senior photos

Please have your senior picture taken soon if you haven't done so already. Senior pictures are due in November to be included in the yearbook.

Transportation • Updates and reminders

The start of the school year will not bring any major changes in bus transportation.

A couple of routes will have new drivers as Dave Ebner (Bus #11) has retired. We thank him for his time with the School District. Noah Anderson will now drive Bus #11 and Todd Seeger joins our team to drive the morning route of Bus #7.

Cameron buses drive well over 100,000 miles each year. There are things everyone can do to keep our students and themselves safe. While waiting for the bus in the morning, students should stand in a location near the road so that the bus driver can see them; however, they should be far enough back from the road to not be in danger from passing vehicles. When dropped off at the end of the day, students should immediately

move away from the road and go to their house. If students need to cross the road, they should look at the bus driver and wait for a signal that it is safe to cross.

While on the bus, students should be aware of the rules for a safe bus ride. These include staying seated, keeping personal items in the seat with them, keeping all body parts and objects inside the bus at all times, and talking at a normal indoor volume level.

For motorists on the road at the same time as buses, keep in mind that if you see a bus in the morning between roughly 6:45 am and 8:00 am, it is out to pick up students and will be making stops.

The same is true for buses on the road between 3:00 pm and 5:00 pm. Busses may be stopping at almost any time to drop off students. Stay a safe distance away

from the bus and watch for the activation of warning lights. The alternating flashing yellow lights mean that the bus is preparing to stop soon. You should also be preparing to stop. The lights are NOT a warning for you to hurry up and speed around the bus. Once the flashing lights switch to red, you are required by law to stop at least 20 feet from the bus. The red lights at the top of the front and rear of the bus are what determines if you are required to stop. It does not matter if the stop arm on the bus has fully extended or not. It does not matter if you are travelling towards the bus from its front or rear. It does not matter which side of the road the students are on. If warning lights are flashing, you need to be stopping.

Let's have a great school year and thank you for keeping our children safe!

Code of Conduct Policy - The Code of Conduct describes desired student behaviors that would contribute to a safe and pleasant environment. A student that exhibits appropriate behavior could be described as: courteous, honest, respectful, responsible, courageous, etc. Behavior and language which are acceptable result in an environment which is safe, minimizes stress, and maximizes the opportunity for learning. On the other hand, behavior which does not create an appropriate, pleasant environment is not acceptable. Examples of unacceptable behavior include: aggressive behavior which endangers oneself or others, behavior or language which is offensive or disruptive to the classroom or activity, the possession and / or use of alcohol, tobacco, or drugs, the possession of beepers, communication devices, weapons, or look-a-likes.

Behaviors which are not acceptable are initially dealt with by the teacher or supervisor in the area. Further, such behaviors may result in referral to school officials for additional disciplinary action. Discipline may include, but is not limited to: talking with the student, parental contact, detention, suspension from the activity or from school for a period of time, expulsion, and / or any combination of these. The ultimate objective of discipline is the restoration of a relationship that allows for a safe, pleasant environment for everyone. An exception exists for the weapons clause which allows for the instruction of hunter's safety under the direction of properly trained instructors. A more detailed

District information

summary of the Code of Conduct Policy is printed in the Student Handbook which will be issued as students begin school this year. The Code of Conduct Policy as adopted by the Board of Education is available for review by contacting the District Office at 458-4560.

Student Records - The District maintains records for each student attending school in the District. State and Federal law requires that the maintenance of such records assure confidentiality. Accordingly, the following shall apply in the District.

- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to inspect, review and obtain copies of the student's school records upon request in accordance with established District procedures. The District will respond to such requests without unnecessary delay and in no case more than 15 days after the request is made. Copies of the District's student records procedures are available upon request at the District Office, 700 S. 1st St., Cameron, WI 54822. The regular office hours are 8:00 am until 4:00 pm.

- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to request the amendment of the student's school records if he/she believes the records are inaccurate or misleading. Complaints regarding the content of student records may be made in accordance with established District procedures. Copies of the District's procedures are available upon request as outlined above.

- An adult student, or the parent(s) or guardian(s) of a minor student, has the right to consent to the disclosure of information contained in the student's school records, except to the extent that state and federal law authorize disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials determined to have legitimate educational or safety interests in the records.

A "school official" is a person employed by the District who is required by the Department of Public Instruction to hold a license; a person employed by or working on behalf of the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and police-school liaison personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a specific task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a "legitimate educational or safety interest" if the official needs to review a student record in order to fulfill his/her professional or District responsibility. The District shall transfer a student's records to another school or school district without consent upon request in accordance with state law. District procedures outline the specific reasons for disclosure without consent and are available upon request as outlined above. The District is required by law to make student records available to "law enforcement officers who are

individually designated by the school board."

- An adult student, or the parent(s) or guardian(s) of a minor student has the right to file a complaint with the U.S. Department of Education for alleged District noncompliance with federal Family Educational Rights and Privacy Act (FERPA) requirements. The name and address of the office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605. Further, the Board of Education has designated the following student record information as directory data: student's name, address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received and name of school most recently previously attended by the student. This information may be disclosed to any person UNLESS the adult student, or parent/guardian or guardian ad litem of a minor student informs the school that all or any part of the directory data may not be released without the prior consent of the adult student, parent/guardian or guardian ad litem. The District will not release directory data earlier than two weeks (14 days) after the opening of school or receipt of this notice.

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the School District of Cameron, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child's education records in certain school publications. Examples include:

A playbill, showing your student's role in a drama production; the annual yearbook; honor roll or other recognition lists; graduation programs; sports activity sheets, such as for wrestling, showing weight & height of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want the District to disclose directory information from your child's education

records without your prior written consent, you must notify the District in writing. The District has designated the following information as directory information:

Student's name; Address; Telephone listing; Date & place of birth; Electronic mail address; Participation in officially recognized activities & sports; Weight and height of members of athletic teams; Degrees, honors and awards received; photograph; Most recent educational agency or institution attended; Website and newsletter pictures; Major field of study; Dates of attendance; and Grade level.

Notification of Rights under FERPA for Elementary and Secondary Schools - The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate. Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board, a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school district to comply with the requirements of FERPA. The name and ad-

dress of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605.

These include the right to:

3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

- Inspect, upon request and before administration or use -

1. Protected information surveys of students

2. Instruments used to collect personal information from students for any of the above marketing, sales or other distribution purposes

The School District of Cameron has developed and adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected surveys and the collection, disclosure or use of personal information for marketing, sales or other distribution purposes. The District will directly notify parents and eligible students of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify parents and eligible students, such as through U.S. mail or e-mail, at least annually at the start of each school year of

Sponsor a child

The Comet Care Pack Program is providing another year of service to Cameron School students! The Comet Care Pack is a program that provides kid-friendly, non-perishable food for Cameron School students at no cost to them. Nutritious items from a variety of food groups will be distributed at the end of each school week to students in the Cameron School District. Last school year we were able to serve over 60 students.

We will again be ordering the food from Feed My People Food Bank, located in Eau Claire. It takes approximately \$125.00 per year to provide a child with a weekly Comet Care Pack.

Thank you to everyone who made this program become a reality. Your support is greatly appreciated. We will be starting the program again this fall and any

the specific or approximate dates of the following activities and provide an opportunity to opt a student out of participating in:

- Collection, disclosure or use of personal information for marketing, sales or other distribution.

- Administration of any protested information survey not funded in whole or in part by ED.

- Any non-emergency, invasive physical examination or screening as described above.

Parents/eligible students who believe their rights have been violated may file a complaint with: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202-4605.

SCHOOL DISTRICT OF CAMERON ANNUAL NOTICE OF SPECIAL EDUCATION REFERRAL AND EVALUATION PROCEDURE

Learning is so much fun in summer school!

DURES

Upon request, the Cameron School District is required to evaluate a child for eligibility for special education services. A request for evaluation is known as a referral. When the district receives a referral, the district will appoint an Individualized Education Program (IEP) team to determine if the child has a disability, and if the child needs special education services. The district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private (including religious) schools, elementary schools and secondary schools located in the school district.

A physician, nurse, psychologist, social worker, or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to refer the child, including a homeless child, to the school district in which the child resides. Before referring the child, the person making the referral must inform the child's parent that the referral will be made.

Others, including parents, who reasonably believe a child is a child with a disability may also refer the child, including a homeless child, to the school district in which the child resides.

Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Dennis Gunnick, Director of Special Education, Cameron School District, at 715-458-4560 or by writing him at P.O. Box 378, Cameron, WI 54822.

CONFIDENTIALITY OF PERSONALLY IDENTIFIABLE INFORMATION OBTAINED THROUGH CHILD FIND ACTIVITIES

Cameron School District is required to locate, identify, and evaluate all children, with disabilities, including children with disabilities attending private schools in the school district, and homeless children. The process of locating, identifying, and evaluating children with disabilities is known as child find. The school district has a special education screening program to locate and screen all children with suspected disabilities who are residents of the district and who have not graduated from high school. This notice informs parents of the records the school district will develop and maintain as part of its child find activities. This notice also informs parents of their rights regarding any records developed.

The school district gathers personally identifiable information on any child who participates in child find activities. Parents, teachers, and other professionals provide information to the school related to the child's academic performance, behavior, and health. This information is used to determine whether the child needs special education services. Personally identifiable information directly related to a child and maintained by the school is a pupil record. Pupil records include records maintained in any way including, but not limited to, computer storage media, video and audiotape, film, microfilm, and microfiche. Records maintained for personal use by a teacher and not available

to others and records available only to persons involved in the psychological treatment of a child are not pupil records.

The school district maintains several classes of pupil records.

- "Progress records" include grades, courses the child has taken, the child's attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.

- "Behavioral records" include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil's behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening records, law enforcement officers' records, and other pupil records that are not "progress records." Law enforcement officers' records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child's parents, the school district destroys the information that is no longer needed.

- "Directory data" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently previously attended by the student.

- "Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil's physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age ("eligible students") the following rights with respect to education records:

- The right to inspect and review the student's education records within 45 days of receipt of the request. Parents or eligible students should submit to the school principal or district administrator a written request that identifies the records(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and

place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

- The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask Cameron School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent. The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to (m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official com-

mittee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.

- The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

Reye's (Ryes) syndrome is a rare but serious condition that causes swelling in the liver and brain. Reye's syndrome most often affects children and teenagers recovering from a viral infection, most commonly the flu or chickenpox. Aspirin has been linked with Reye's syndrome, so use caution when giving aspirin to children or teenagers. Though aspirin is approved for use in children older than age 2, children and teenagers recovering from chickenpox or flu-like symptoms should NEVER take aspirin.

The signs and symptoms of Reye's syndrome typically appear about three to five days after the onset of a viral infection, such as the flu (influenza) or chickenpox, or an upper respiratory infection, such as a cold. Initial signs and symptoms may include continuous vomiting, lethargy, and unusual sleepiness. As the condition progresses, signs and symptoms may become more serious, including: irritable, aggressive or irrational behavior, seizures, weakness, paralysis of arms and legs, confusion, disorientation or hallucinations. These symptoms require emergency treatment. Early diagnosis and treatment of Reye's syndrome can save a child's life. If you suspect that your child has Reye's syndrome, it's important to act quickly.

Always check the label before you give your child medication, including over-the-counter products and alternative or herbal remedies. Aspirin can show up in unexpected places,

such as Alka-Seltzer and Pepto-Bismol. Sometimes aspirin goes by other names, too, such as: acetylsalicylic acid, acetylsalicylate, salicylic acid, and salicylate. If your child has the flu, chickenpox or another viral illness, use other medications—such as acetaminophen (Tylenol, others), ibuprofen (Advil, Children's Motrin, Motrin IB, others) or naproxen (Aleve)—to reduce high fever or relieve pain.

If you have questions regarding the use of aspirin for your child contact your healthcare provider. If suspect your child has Reye's Syndrome he/she requires immediate medical care.

Meningococcal Disease Meningococcal disease is a rare but potentially fatal bacterial infection that can cause severe swelling of the brain and spinal cord (meningitis) or a serious blood infection (meningococemia). Meningococcal disease is often misdiagnosed as something less serious because early symptoms are similar to common viral illnesses. Symptoms may include: high fever, severe headache, stiff neck, vomiting, sensitivity to light, nausea, confusion, rash and fatigue. Symptoms may develop rapidly or over several days. The disease can be fatal in as little as a few hours. Of those that survive 20 percent will have permanent disabilities, including brain damage, loss of limbs, and deafness. Meningococcal disease is spread through direct contact with respiratory and/or oral secretions from infected persons. Increased risk of exposure is caused by activities such as kissing, sharing drinks, or living in the same house as a sick person.

Teenagers and college students are at increased risk because of their lifestyle, and account for nearly 30 percent of the 4,000 cases in the United States each year. Up to 83 percent of the cases among teens and college students may potentially be prevented by immunization, the most effective way to prevent the disease. The CDC and other leading health organizations recommend that all 11–12 year olds should be vaccinated with meningococcal conjugate vaccine. A booster shot is recommended at age 16 to continue to protect through the teenage years. If a teenager has missed getting the vaccine, the parents should ask their healthcare provider about getting it now.

Keeping up to date on the meningococcal vaccine is the best way to prevent illness. Students should also get plenty of rest, eat a healthy diet, and avoid sharing drinks.
